

klinion® pre-filled saline syringes

Safety · Precision · Protection

at the heart of healthcare

KLINION®

klinion[®] prefilled saline flush syringes

Mediq is a trusted healthcare partner providing high-quality, affordable medical products and solutions. Our portfolio spans wound care, infusion therapy, and essential clinical consumables. Combining quality, functionality, and value to support healthcare professionals across the UK. Klinion[®] is a long-established Mediq brand, recognised for its commitment to these same values.

Klinion[®] prefilled saline syringes for flushing vascular access devices are ready to use and improve patient safety.¹ Designed to meet the high standards of sterility and ease-of-use, these syringes are a trusted choice for effective and sterile intravenous care.

Indications

Klinion[®] prefilled syringes 0.9% Sodium-Chloride (NaCl) are ready to use syringes, intended for use in flushing compatible intravenous administration sets and indwelling intravenous access devices. For flushing only. Not made with natural rubber latex or DEHP.

Safety · Precision · Protection

No-Reflux Design

Reduces the risk of catheter blockage, supporting uninterrupted IV therapy.

Designed with safety in mind

Latex-, DEHP- and PVC-free, ensuring patient compatibility.

Integrated Needle-Free System

Maintains the patency of indwelling IV access while prioritizing safety.

Convenient Design

Easy screw-on tip cap minimizes microbial contamination.

External Sterilization (xs variants)

Ideal for sterile field applications, enhancing infection control measures.

Regulatory Excellence

Classified as MDR Class IIA, complying with ISO standards.
